EXPERIENCE

Pace Stock Broking Services

Oct 2024 – Present

Quant Developer

New Delhi, India

- Developed a market-neutral C++ MFT strategy using option Greeks and strike-selection models for dynamic F&O position management.
- Translated Python research into low-latency, production C++ strategies for live trading.
- Architected a production-ready MCP-based research server, securely operationalizing company IP through strategy tools and dynamic resources.
- Achieved 25.58% annualized return with a maximum drawdown of -1.43%, delivering strong risk-adjusted performance.
- Built quantitative options-selling models targeting high Sharpe ratios, leveraging ML for alpha generation and adaptive risk control.

Quant Intern

Dec 2023 – Mar 2024

- Designed an ML-driven portfolio optimization framework to align strategy-level dynamics and improve capital allocation across variants.
- Conducted large-scale backtesting of options strategies in Python, evaluating performance via riskreturn metrics and parameter sweeps.

Juspay Technologies Private Limited

Apr. 2024 – Sept. 2024

SDE Intern

Bangalore, India

- Built and optimized data pipelines using Rust, Kafka, ClickHouse, and PostgreSQL; improved API reliability, observability, and production stability with Grafana, Postman, and Cypress.

Upvote Entertainment

May 2023 – Jul. 2023

Data Scientist Intern

Remote

- Built ML models including an 86%-accurate Music Emotion Recognizer, a CNN genre classifier, and a content-based recommender; optimized backend with FastAPI.

TCA HongKong

Dec. 2022 – Feb. 2023

Full Stack Developer (Freelance)

Remote

- Built a responsive movie ticket platform using Django, REST API, AWS, and MySQL; enabled real-time ticket cancellation and ensured robust backend design and performance.

EDUCATION

IIIT Nagpur

Dec. 2020 – Jul. 2024

Bachelor of Technology in Computer Science Engineering – CGPA (8.8)

Nagpur, India

SKILLS

Skills: Fundamental Analysis, Financial Advance Machine Learning.

Languages: C, C++, Python, Rust, PostgreSQL, ClickHouse, MySQL

Frameworks/Tools: Django, FastAPI, Langchain, TensorFlow, Cypress, Grafana, Kafka, WebSocket, Docker

CERTIFICATIONS AND AWARDS

Certifications: NISM Series VIII - Equity Derivatives, Gen-AI with LLMs (Coursera), Azure Fundamentals Certification,

Awards: Ranked in the Top 20 for Bihar Innovation Challenge for Conversational AI Prototype (VishwaGuru), Mentored 200+ freshers and 50+ students bootstrapping real trade programs.
